Basis of preparation and accounting policies

The results for the year ended 31 March 2017 have been prepared in accordance with International Financial Reporting Standards ("IFRS"), IAS 34 - Interim Financial Reporting, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the requirements of the South African Companies Act, No. 71 of 2008 (as amended) and the Listings Requirements of the JSE Limited. The accounting policies of the Group are consistent with those applied for the year ended 31 March 2016. The adoption of new standards that are applicable for this financial year had no impact on the figures presented. Details of the standards adopted will be provided in the annual financial statements. As required by the Listings Requirements of the JSE Limited, the Group reports headline earnings in accordance with Circular 2/2015 - Headline Earnings, as issued by the South African Institute of Chartered Accountants. These financial statements were prepared under the supervision of the financial director, Ms Muriel Loftie-Eaton CA(SA).

Review report of the independent auditor

The provisional condensed consolidated financial statements for the year ended 31 March 2017 have been reviewed by Grant Thornton Johannesburg Partnership, who expressed an unmodified review conclusion. The auditor's report does not necessarily report on all of the information contained in the financial results. Shareholders are therefore advised that in order to obtain a full understanding of the nature of the auditor's engagement they should obtain a copy of the auditor's report together with the accompanying financial information from the issuer's registered office.

Change in accounting estimate

The annual re-review of the useful life of gaming machines resulted in an increase in the useful life due to the extended use of gaming machines than originally expected. The Group revised the useful life of gaming machines from six years to seven years effective 1 April 2016.

The effect of the change in the useful life of gaming machines on the depreciation expense for the year, is a decrease of R10 million and an expected annual decrease for future years of R10 million per annum.

Galaxy's site development costs were previously depreciated over the term of the initial lease, but the estimated depreciation period has been amended to include guaranteed renewal options, limited to a 10-year total depreciation term.

The effect of the change in the depreciation term for site development costs on the depreciation expense for the current period is a decrease of R8 million and an expected annual decrease for future periods of R7 million.

Restatement of prior year figures

The acquisition of a controlling interest in Betcoza on 1 December 2015 qualified as a business combination in terms of IFRS 3 - Business Combinations. Comparative figures as at 31 March 2016 were determined based on all information available at the acquisition date ("provisional accounting"). This provisional accounting was adjusted for new information obtained within the timeframe of 12 months after the acquisition date. These adjustments to the fair values determined in the provisional purchase price allocation are not treated as movements in the current financial year, but as an adjustment to the comparative figures as at 31 March 2016. The effects of the revised acquisition accounting are as follows:

Intangible assets increased by R2,9 million
Goodwill decreased by R0,9 million
Deferred tax liability increased by R0,6 million
Non-controlling interest increased by R1,3 million

COMMENTARY

Consumer spending remains under pressure and is expected to remain under pressure for the next year. We are fortunate that the Group managed to increase net gaming win by 13,8% compared to the prior period.

The Group has made representations to the Department of Trade and Industry following the publication of the draft National Gaming Amendment Bill. We remain hopeful that our representations, in particular about the operation of electronic bingo terminals ("EBTs") will be successful.

Illegal gambling remains a significant concern. We are seeing certain provinces taking more decisive action against these operators, but much remains to be done. Our own efforts have resulted in the closure of sites, and a High Court judgement in our favour, will assist in expediting the closure of more sites.

Bingo and casino operations

The EBITDA contribution from this the segment increased to R104 million from R62 million in the comparative period. EBITDA from fully developed sites (before head office costs) increased to R152 million from R130 million for the prior year. The R152 million decreased to R104 million as a result of head office costs, development costs and losses of new sites that are not fully operational. If the development sites are closed, and no further bid or legal costs are incurred, the head office cost of managing only the fully developed sites is estimated to be R20 million per annum. On a stand alone basis the fully developed sites therefore make a pro forma EBITDA of R132 million per annum.

The Group now operates 2 350 EBTs, an increase of 708 compared to the prior year.

The depreciation cost of the bingo operation is relatively low as the EBTs and premises are mostly rented. The depreciation charge decreased to R31 million from R35 million in the prior period.

The discussions with KwaZulu-Natal Gaming and Betting Board to settle numerous court cases are continuing. The main impediment to the settlement of the various cases, are actions brought by some of the incumbent casino operators against the approval of

EBTs by the KZN gaming board.

During the year the Group was awarded licences in Hazyview, Tonga, Musina, Bochum, Moruleng, Uitenhage, Ngcobo, King Williams Town and Tzaneen. We have already opened Bochum, Ngcobo, King Williams Town and Moruleng with the balance of licences estimated to be operational by the end of the calendar year. In addition, the challenge against our Uitenhage licence was dismissed. Construction has commenced and we expect to be open by 30 September 2017.

The performance of the Kuruman casino has improved significantly. The net gaming win grew by 17,6% compared to the prior year and the EBITDAR margin of 39% is a 3% improvement compared to the interim report.

Vukani
Vukani increased EBITDA to R343 million from R300 million (R291 million after adding back R9 million of sports betting losses, now separately reported) in the comparative period.

The depreciation charge decreased by R4,1 million for the year. This reduction is mainly as a result of the change of our limited pay-out machine useful life estimate from six to seven years. We continue to invest in new machines where required and assess our machine replacement requirements to ensure that we achieve an appropriate return on capital on this investment.

The installed machine base increased to 5 603 machines (2016: 5 265) representing an increase of 262 machines since the September 2016 report.

Average monthly gross gaming revenue ("GGR") per machine was R20 352 (2016: 18 492) with total GGR growing 12% year on year.

Operating expenses for the year were R199 million (2016: R199 million). On a like for like basis expenses increased by 5,9%.

Sports betting
The retail and online sports betting offering have been consolidated under BET.co.za. The online offering is profitable and is growing consistently. The BET.co.za mobile app was launched in an effort to further improve the service offering and we will continue to invest in this channel. The number of retail shops have been reduced following an evaluation of long term potential and investment requirements. The combined operations made an EBITDA loss of R3,6 million for the year compared to R9,5 million in 2016.

KWV
The Group concluded the sale of the operating assets of KWV for R1,18 billion and received the first tranche of the purchase consideration of R575 million on 14 October 2016. The balance of the purchase price will be received in three tranches supported by an Investec bank payment guarantee. The trading results of KWV, included in discontinued operations, increased from a headline profit of R20 million to R32 million following the re-measurement of the book value of the operating assets to the purchase consideration. Attributable headline profits from continuing operations was R20 million for the year.

Head office costs
Head office costs reduced to R47 million from R79 million and included share-based compensation expenses of R29 million compared to R9 million in 2016. On a normalised basis we expect head office costs to be R26 million per year.

Change in directors
Mr Khutso Mampeule has resigned from his position as independent non-executive director from 19 April 2017.

Dividend
The directors declared and approved a final gross ordinary dividend of 22 cents out of income reserves. The dividend will be payable on 19 June 2017.
